## OUR GUARANTEES

- Product and industry know-how
- Traceability, safety and integrity of goods
- Constantly seeking to optimize your supply chain and your costs

## OUR EXPERTISE

- **Multimodal transport** and overseas logistics solutions to allow you to connect your production sites and your distribution points quickly and effectively.
- **Respecting the cold chain:** temperature controlled, reefer shipments.
- **Quality control** to insure your supply chain is reliable: factory audits, production monitoring, verification of goods before loading, laboratory tests, obtaining standards.
- **Logistics services:** receiving, cross-docking, consolidation / de-consolidation, warehousing, palletising, loading containers, packaging, order preparation.

- Provision of tools and **monitoring dashboards** for full traceability of your shipments.

- **AEO certified** management of the **documentary and regulatory aspects of your shipments.**
- **Extensive knowledge of the regulations** affecting your products, whatever the country
- **Air freight charter flights.**
- **Experts in the e-commerce supply chain,** through our subsidiary Crosslog.  
A range of solutions for your e-shop on the domestic market and abroad.  
Confirmed experience with major cosmetic brands.
