**DELIVERED
ON TIME TO
MEET YOUR
PRODUCTION
DEADLINES**

OUR GUARANTEES

- Responsiveness, flexibility and just-in-time service to suit your production schedules
- Particular attention will be given to protect all the components of your shipments
- Constantly seeking to optimize your supply chain flow and your costs

OUR EXPERTISE

- International transport of vehicles for a wide range of vehicles adapted for Complete Build Units (CBU), complete Knock Down (CKD), as well prototypes, concepts cars or ready-to-sell and use vehicles
- **Exclusive and Consolidated container services** adapted to air freight and sea freight transportations to offer the most secured and safest solutions
- **Multimodal transport solutions** from the air charter flight with no restriction on shipment size or weight, specific sea freight as RoRo, rail and combined solutions for your single or multiple procurement flows: multi-country and multi-supplier
- **Logistics services:** reception, cross-docking, consolidation/de-consolidation, warehousing, palletizing, container loading,
- **Aftermarket & overseas logistics solutions** allow you to connect **Just-In-Time (JIT)** your production sites and your distribution points quickly and effectively with secured & bonded warehouses.

- A reliable **quality control** to insure your supply chain: supplier factory audits, production monitoring, verification of goods before loading, laboratory tests, obtaining standards.
