**Our customs experts** will assist and advise you on how to benefit from all the solutions offered by customs legislation

## OUR SERVICES

### AUDITING YOUR SUPPLY CHAIN

- **Advice and recommendations from our experts:** optimizing your customs activity, identification of potential risk areas, improving procedures and internal inspections
- **Ensuring compliance with international regulations**
- **Customized solutions** tailored to your needs

### AEO SUPPORT

- **Assistance from our experts from examining your logistics processes to submitting** the file to the customs administration
- **Advice with selecting the most suitable AEO status** for your needs: Security AEO Full AEO (customs and security)

### BINDING TARIFF INFORMATION & BINDING ORIGIN INFORMATION

- **Preparing and filing** with the customs administration your applications to determine the customs nomenclature of your goods and/or having the origin of your goods certified
- **Offering a legal guarantee of tariff classification**, all EU customs services being linked
- **Securing your international operations** by having the origin of your goods certified by the customs authorities
- To be done before **customs clearance**, and valid for 6 years

### IMPORT AND EXPORT CUSTOMS OPERATIONS

- **Handling all your import and export customs operations** guaranteeing compliance with international regulations, improved flow of exchanges, and reduced delays, fines or penalties
- **Local clearance procedures, reversal of VAT liability**
- **Requests for economic customs procedures, inward processing and outward processing**
- **Confirmed customs expertise** for CAP products, alcohols and dual-use goods

### CUSTOMS WAREHOUSES

- **Recommendations concerning customs warehousing**, incoming and outgoing stock, temporary import and export, bonded handling
